Directors' Report For the year ended 31 December 2020

The Directors present their report and the financial statements for Praude Funds ICAV (the "ICAV") for the year ended 31 December 2020.

Except where otherwise stated, defined terms shall have the same meaning herein as in the Prospectus of the ICAV.

Business review, principal activities and significant changes during the year

The ICAV is an umbrella type Irish Collective Asset-management Vehicle with segregated liability between its Sub-Funds established under the laws of Ireland on 5 March 2018 and regulated by the Central Bank of Ireland (the "Central Bank") under registration number C178344. It is authorised in Ireland by the Central Bank pursuant to Part 2 of the Irish Collective Asset-management Vehicles Act 2015 (the "ICAV Act 2015"), as a Qualifying Investor Alternative Investment Fund on 6 April 2018.

The ICAV has established two Sub-Fund's, the Praude Total Return Fund which was authorised on 6 April 2018 and commenced operations on 2 May 2018 and the Praude Pure Equity Fund which was authorised on 17 July 2018 and commenced operations on 19 December 2018 (individually the "Sub-Fund", together the "Sub-Funds").

The investment objective of the Praude Total Return Fund is to seek the highest level of long-term total return which includes capital growth, interest and dividends received.

The investment objective of the Praude Pure Equity Fund is to achieve long-term appreciation principally through value investing in the major equity markets.

Praude Asset Management Limited acts as the Investment Manager (the "Investment Manager") to the ICAV.

European & Global Investments Limited acts as the Alternative Investment Fund Manager (the "AIFM") to the ICAV.

The business of the ICAV is reviewed in detail in the Investment Manager's Report on pages 9 to 12.

Principal risks and uncertainties

The principal risks and uncertainties which the ICAV faces relate to the investments in equity securities, equity-related securities and derivative financial instruments by the Sub-Funds and are discussed in note 8 "Financial instruments and associated risks".

During the year we saw the development of the coronavirus Covid-19 outbreak initially in China and now reaching most continents. It has been declared a global pandemic by the World Health Organisation. The nature and extent of the impact of such an event is difficult to predict but it may adversely affect the return on the ICAV and the Sub-Funds' investments and there is concern about the impact on the world economy in the medium-term. There was a significant correction in the financial markets in the year although this has been partially recouped. The AIFM and the Investment Manager continue to monitor the efforts of governments to contain the spread of the virus and monitor the economic impact on the investments in the portfolios.

Investors should be aware of the liquidity risk presented by this global pandemic. There is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. Market disruptions or closures may result in the Investment Manager being unable to accurately value the assets of the Sub-Funds, or in the event of high levels of redemption, the AIFM may use certain liquidity management tools permitted by the Central Bank, including deferred redemptions, the implementation of fair value pricing or temporarily suspension of the Sub-Funds.

Future developments in the business of the ICAV

The ICAV will continue to pursue its investment objectives as set out in the Prospectus. For details of significant events after the year end and the decision of the Directors, in the best interest of the Shareholders, to terminate the Praude Pure Equity Fund, please refer to note 18.

Results for the year

The results for the year are set out on page 19.

Directors' Report (continued) For the year ended 31 December 2020

Directors and Secretary's interests

The Directors and Secretary are as stated on page 3.

The following Directors served throughout the year:

Aoife Connolly Janice Moore Robert Azzopardi

None of the Directors nor the Secretary had any interest in the share capital of the ICAV as at 31 December 2020.

Aoife Connolly is the Financial Controller and Janice Moore is the Compliance Officer and the Money Laundering Reporting Officer of the AIFM.

Robert Azzopardi was the Chief Financial Officer of the Investment Manager up to 14 June 2019.

Related party transactions

For details of related party transactions during the year, please refer to note 10.

Connected person transactions

As at 31 December 2020, the Directors of the ICAV are satisfied that: (i) there are arrangements in place, to ensure that the obligations set out in paragraph 1 of Section 1.viii 'Dealings by management company, general partner, depositary, AIFM, investment manager or by delegates or group of these of this Part' are applied to all transactions with connected persons; (ii) and that transactions with connected persons entered into during the year complied with the obligations set out in that paragraph.

Note 10 to these financial statements details related party transactions during the year. Details of fees paid to related parties and certain connected persons are also set out in note 10.

Significant events after the year end

For details of significant events after the year end, please refer to note 18.

Adequate accounting records

To ensure that adequate accounting records are kept in accordance with the ICAV Act 2015, the Directors of the ICAV have employed a service organisation: CACEIS Ireland Limited (the "Administrator"). The accounting records are located at the offices of the Administrator as stated on page 3.

Political donations

The ICAV did not make any political donations during the year.

Independent Auditors

Deloitte Ireland LLP were appointed in accordance with Section 125 of the ICAV Act 2015, and have expressed their willingness to continue in office.

Directors' Report (continued) For the year ended 31 December 2020

Directors' Responsibilities Statement

The Directors are responsible for preparing the Directors' Report and financial statements, in accordance with applicable law and regulations.

The Irish Collective Asset-management Vehicles Act 2015 (the "ICAV Act 2015") requires the Directors to prepare financial statements for each financial year. Under that law, the Directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards, as permitted by Section 116(4) of the ICAV Act 2015 and applicable law.

The financial statements are required to give a true and fair view of the assets, liabilities and financial position of the ICAV at the end of the financial year and of the profit or loss of the ICAV for the financial year. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies in accordance with International Financial Reporting Standards as adopted by the European Union and then apply them consistently;
- make judgements and estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the ICAV will continue in business. The financial statements of Praude Funds ICAV have been prepared on a going concern basis under the historical cost convention, as modified by the measurement of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and profit or loss of the ICAV and enable them to ensure that the financial statements comply with the ICAV Act 2015. The Directors have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the ICAV. In this regard, the Directors have entrusted the assets of the ICAV to CACEIS Bank, Ireland Branch (the "Depositary") for safekeeping. The Directors have general responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities. The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the ICAV Act 2015.

Directors' Report (continued) For the year ended 31 December 2020

Statement of Corporate Governance

(a) General Requirements

The ICAV is subject to the requirements of the Irish Collective Asset-management Vehicles Act 2015 (the "ICAV Act 2015") and the AIF Rulebook. The ICAV is subject to corporate governance practices imposed by:

- (i) the ICAV Act 2015 which may be obtained from the Irish statute book website at <u>www.irishstatutebook.ie</u> and are available for inspection at the registered office of the ICAV;
- (ii) the Instrument of Incorporation of the ICAV (the "Instrument") which may be obtained at the ICAV's Registration Office in Ireland and is available for inspection at the registered office of the ICAV; and
- (iii) the Central Bank of Ireland (the "Central Bank") in their Central Bank AIF Rulebook which may be obtained from the Central Bank's website at: http://www.centralbank.ie/regulation/industry-sectors/funds/aifmd/Pages/default.aspx

In addition to the above, the ICAV has adopted the Irish Funds Corporate Governance Code for Collective Investment Schemes and Management Companies (the "IF Code"). The Board of Directors have put in place a framework for corporate governance which it believes is suitable for an investment company with variable capital and which enables the ICAV to comply voluntarily with the requirements of the IF Code, which sets out principles of good governance and a code of best practice.

(b) Board of Directors

In accordance with the ICAV Act 2015 and the Instrument unless otherwise determined by an ordinary resolution of the ICAV in general meeting, the number of Directors may not be less than two. The Board of Directors (the "Board") currently comprises three Directors. Details of the current Directors are set out in the "ICAV and Other Information" section on page 3, under the heading "Directors of the ICAV".

In respect of the composition of the Board of Directors, the Corporate Governance code states the following:

"It is recommended that the Board comprise a majority of non-executive directors, and at least one independent director."

There are currently no independent Directors. The Board of Directors believes it has appropriate arrangements in place to address the lack of an independent Director including a Conflicts of Interests Policy. The Board also believes that the current Directors possess all the necessary skills and experience to ensure effective governance and oversight of the ICAV.

Otherwise, the Board of Directors has assessed the measures included in the IF Code as being consistent with its corporate governance practices and procedures for the financial year.

The Board has delegated management of the ICAV to certain delegate service providers. These delegate service providers are set out in the "ICAV and Other Information" section on page 3.

Board materials, including a detailed agenda of items for consideration at each Board meeting, minutes of the previous Board meeting and reports from various internal and external stakeholders, including delegate service providers, are generally circulated in advance of the Board meeting to allow all Directors adequate time to consider the material.

Directors' Report (continued) For the year ended 31 December 2020

Statement of Corporate Governance (continued)

(c) Internal Control and Risk Management Systems in Relation to Financial Reporting

The Board is responsible for establishing and maintaining adequate internal control and risk management systems of the ICAV in relation to the financial reporting process. The Board has entrusted the administration of the accounting records to an independent administrator, CACEIS Ireland Limited (the "Administrator"). The Board, through delegation to the Administrator, has put in place a formal procedure to ensure that adequate accounting records for the ICAV are properly maintained and are readily available, and includes the procedure for the production of audited annual financial statements for the ICAV. The audited annual financial statements of the ICAV are prepared by the Administrator and presented to the Board for approval, prior to applicable filing, such as with the Central Bank.

From time to time, the Board will examine and evaluate the Administrator's financial accounting and reporting routines, and will monitor and evaluate the Independent Auditors' performance, qualifications and independence.

Signed on behalf of the Board of Directors:

Conno lly Director Aoife Connolly

User Director Janice Moore 16 June 2021

Investment Manager's Report For the year ended 31 December 2020

Praude Total Return Fund Manager Report Financial Year 2020

During the financial year under review from 1 January 2020 until 31 December 2020, the Praude Total Return Fund (the "Sub-Fund") lost 3.37%. Since the Sub-Fund is an absolute return fund, it is not managed in accordance with any benchmark. However, merely as a point of reference, one can note that during the year under review, the Euro Stoxx 50 Index lost 5.14% and the Stoxx Europe 600 Index lost 4.04%. The Bloomberg Barclays EuroAgg Total Return Index (consisting of investment grade, euro-denominated, fixed-rate bonds including treasuries, government-related, corporate and securitized issuers) returned +4.05% during the year. In accordance with the Sub-Fund's investment policy, Praude Total Return Fund primarily invests in equities but also had a 10% exposure to bonds during the year.

Stock markets in 2020 were characterised by a high degree of volatility and this was visible in the Sub-Fund's performance during the year. From mid-February to mid-March 2020, we saw a severe market crash driven by the COVID-19 pandemic and the economic consequences resulting from the lockdowns which followed. By 13 March 2020, the Sub-Fund was down 26% year-to-date, whilst the Euro Stoxx 50 Index and the Stoxx Europe 600 Index were down 31% and 28% respectively in the same period. As fiscal and monetary policy responses were announced, stocks then rebounded until mid-June, partially offsetting the prior negative performance and improving the Sub-Fund's year-to-date performance to -16.72%. During the summer months, the European equity markets moved sideways in a range until the second half of October when markets fell again due to increasing COVID-19 cases and the implementation of new lockdowns. By the end of October 2020, the Sub-Fund's year-to-date performance had worsened again to -22.42%. However, in November 2020 there was a clear sentiment change, with the Sub-Fund returning +21.4% in the month of November alone. The equity market boost was fuelled by the announcements that the Pfizer and Moderna vaccines were largely effective against the virus and subsequently, the markets began to look past the pandemic and towards the future and the eventual reopening of the economy. A further contribution specific to the Sub-Fund's performance was that in this same period, value stocks outperformed growth stocks after an extended period of underperformance. To illustrate this point, the MSCI Europe Value Index gained 21.2% in the last 2 months of the year whilst the MSCI Europe Growth Index only gained 11.9%. The significance of this trend change shall be examined further below. All in all, the Sub-Fund closed the year with a performance of -3.37%.

The strategy of the Sub-Fund has always been the same: to invest in high-quality small to mid-cap companies which the Manager perceives to be undervalued. As can be seen from the chart below which compares the performance of the MSCI Europe Value Index to the performance of the MSCI Europe Growth Index, this value investing technique outperformed investing in growth stocks from the burst of the dotcom bubble until right before the 2008 financial crisis. Since then, growth stocks seemed to be favoured over value stocks, with the divergence widening notably from 2019 onwards. In November 2020, a reversal of this trend could be seen, assisted by improving economic prospects and rising interest rates (making growth companies relatively less attractive as rising interest rates result in a heavier discount factor being applied to estimated future cash flows). Despite the notable outperformance of value stocks over growth stocks in the last 2 months of 2020, it can be seen that the difference between the relative performance of the two categories is still very close to its historical maximum and that in the past, when the difference was at such extremes, the rebound of the underperforming category was enormous and resulted in a multi-year favourable trend.

Investment Manager's Report (continued) For the year ended 31 December 2020

Praude Total Return Fund Manager Report Financial Year 2020 (continued)

We will now examine the best and worst performers, held by the Sub-Fund during 2020, individually.

The biggest gain during the financial year resulted from the Sub-Fund's position in CPL Resources – a recruitment and temporary work company based in Ireland. This holding had a weight of 4.4% of the Sub-Fund at the start of the year when the share price was EUR7.70. In the early phases of the February/March market downturn, the Manager sold a third of the CPL Resources position held in the Sub-Fund at an average price of EUR8.29 in order to have more cash available to deploy when opportunities would arise and to reduce the Sub-Fund's exposure to this relatively illiquid holding at a time of great uncertainty in the markets. Subsequently, at the end of March, the Manager bought CPL Resources shares at an average purchase price of EUR6.09, reaching a weight of 5.7% of the Sub-Fund at the end of March. On 4 November 2020, a cash offer for all CPL Resources shares was announced by Outsourcing Talent Ireland Limited at EUR11.25 per share. Since the pay date of the offer was in February 2021, most of the CPL Resources holding was sold at an average price of EUR11.14 per share in November 2020 in order to free up liquidity for other investment opportunities with a higher upside potential.

The second-best performing holding during 2020 was the Sub-Fund's position in Adesso SE – a German provider of IT services and software products. Adesso SE started the year with a share price of EUR53.50. Following the market downturn in February/March, the Manager tripled the number of Adesso SE shares held in the Sub-Fund at an average purchase price of EUR43.25. The pandemic highlighted the importance of digitalisation to companies and this resulted in further growth opportunities for Adesso SE, which was later confirmed by the company's 2020 results which showed a 16% increase in sales and a 26% increase in EBITDA. Adesso SE's share price increased by 81% during 2020, finishing the year at EUR97 per share.

The third-best performing position during the year was the Sub-Fund's holding in Acsm-Agam – an Italian gas and water utility company. This position held a 4.4% weighting in the Sub-Fund at the start of the year when the share price was at EUR2. In February, the Acsm-Agam shares held in the Sub-Fund were sold to Ascopiave as part of a larger transaction (also involving other funds managed by the Manager) at EUR2.75 and resulted in Ascopiave becoming a 3.67% shareholder in Acsm-Agam. Prior to this, A2A (a competitor of Ascopiave) had purchased a 4.1% stake in Ascopiave with the probable aim of becoming an influential minority shareholder of Ascopiave and appointing a member of the Board of Directors and the Chairman of the Audit Panel.

Investment Manager's Report (continued) For the year ended 31 December 2020

Praude Total Return Fund Manager Report Financial Year 2020 (continued)

Due to the significant difference in size between the two companies, Ascopiave could not buy a similar stake in A2A for the same purposes. The Manager suggested to the management of Ascopiave that they buy the 3.67% stake in Acsm-Agam from the Sub-Fund and other funds also managed by the Manager. As a result of this transaction, Ascopiave would then be the largest minority shareholder of Acsm-Agam with the right to appoint the Chairman of the Audit Panel. A2A holds 41% of the shares of Acsm-Agam and 90% is held overall by A2A and its partners. Therefore, Ascopiave was able to execute a countermove against A2A that forced A2A to drop its "aggressive" pattern and the Manager created substantial value for the funds it manages.

On the negative side, the worst performing holding in the Sub-Fund was Autostrade Meridionali SpA which fell 37.2% during the year. In its H1 2020 results, the company states that its revenues fell by 34% due to a decrease in motorway traffic of 35% versus the prior year due to the pandemic and the consequent governmental and regional measures implemented limiting economic activity and the movement of people. Despite a hefty decrease in the company's net profit for the full year 2020, the company managed to remain profitable with a EUR4m net profit. This company was badly affected by an unpredictable decision by the Italian Infrastructure Ministry to take back part of the revenues that the company had recorded in the previous eight years; that means more than 30 euros per share! As we write this report, the Ministry's decision was cancelled by a judgement of the Regional Administrative Court of Lazio that was made public in February 2021. The Ministry appealed the sentence and the decision by the Supreme Administrative Court is expected by the summer of 2021.

Two other holdings which performed negatively during the year were Safilo Group SpA and Basicnet SpA. Both of these companies operate in the fashion industry and were also heavily impacted by the imposed measures limiting manufacturing and commercial activities. To illustrate this point, Basicnet SpA's revenue fell by 51.6% year over year in March 2020. The Manager closed the position in Safilo Group SpA during the year and trimmed the position in Basicnet SpA. Basicnet SpA has rebounded since November 2020 but is still not back to its prepandemic level. With regard to Safilo Group SpA, the Manager, on behalf of the Sub-Fund, had to share with the watchdog some doubts about the quality of the disclosure provided by the company in relation to some transactions with related parties. The company, after the intervention of the watchdog, had to rewrite the documents targeted by the Manager. This episode also reinforced the opinion of the Manager that it was preferable to get rid of the whole participation in the company.

After being one of the Sub-Fund's top performers in 2019, Hamburger Hafen und Logistik AG was one of the worst performers in 2020. This company is a leading European port and transport logistics company and was thus also hit hard by the pandemic. The share halved in value in the February/March period due to the deteriorating outlook for throughput and transport volumes. As the year unfolded, throughput and transport volumes were not as negative as initially expected and the share price started to recover. The Manager took this opportunity to reduce the position by about two-thirds.

With regards to the Sub-Fund's bond exposure, the performance of the Greenyard 2021 convertible bond was remarkable. Greenyard is a Belgian seller of fresh, frozen and prepared fruit and vegetables. At the start of the year, the price of the bond was EUR73.79 and this improved to EUR91.78 by the end of the year as the prospects for the company continued to improve. In November, the company announced that its leverage ratio fell to 3.9x, down from 7.2x a year earlier, with an adjusted EBITDA outlook for the financial year of EUR106m to EUR110m. The company also said that it aimed to refinance the convertible bond by March 2021; a goal which the company has delivered on.

To conclude, the Sub-Fund will continue to invest in small to mid-cap companies with a history of reliable profitability and cash generation, capable management and manageable leverage, with attractive valuations compared to their peers and will take the opportunity to build positions in those bonds that present an attractive risk/return profile. The Sub-Fund's performance is improving further in 2021, with the first 3 months of the year returning +14.06%.

Investment Manager's Report (continued) For the year ended 31 December 2020

Praude Pure Equity Fund Manager Report Financial Year December 2020

The Pure Equity Fund (the "Sub-Fund) returned a negative -12.67% over the full year 2020. The Sub-Fund is not managed in accordance with any benchmark. However, merely as a point of reference, one can note that during the period under review, the Euro Stoxx 50 Index lost 5.14% and the Stoxx Europe 600 Index lost 4.04%.

Despite elevated market volatility in February/March triggered by the COVID-19 pandemic outbreak, which led to major declines in equity valuations across the board, the broader market has since stabilised and resumed its upward trajectory with major equity indices closing in to previous peak valuations, or in some cases even surpassing them (for example, the MSCI World Index in EUR was down -33% at the helm of the crisis, while at the end of 2020, it was just -2% lower than pre-crisis levels). The key drivers in lifting asset prices can be identified in (i) the massive and unprecedented coordinated fiscal and monetary stimulus from policymakers at a global level and (ii) the rollout of vaccination programs in the second half of the year, both pointing to a solid recovery in consumer spending and industrial production.

At a portfolio level, significant losses were incurred both on (i) FX currency exposure, as the USD depreciated against the EUR north of 8%, and on (ii) short futures positions which were put in place as a hedge amid heightened market volatility in March and kept throughout the year in the absence of a clear stability in asset prices and in the recovery trajectory of the economies.

As for stock selection, major movers and performance contributors are commented on below:

The Wuxi Biologics Cayman Inc. share price went up by 213% in 2020 as the contract development manufacturer continued enjoying strong growth rates in the biologics segment, further fuelled by the pandemic outbreak. In line with the strong performance drivers experienced by the healthcare outsourcing sector, another significant winner was Catalent Inc. which posted +85% for the year. On the positive side, technology stocks posted solid returns with Adesso AG, Microsoft and Amazon recording for the full year respectively +81%, +41% and +76%. Finally, positive returns were posted by Orla Mining Ltd (+247% for the year), given successful upgrades in their exploration and production roadmap aided by strong precious metals performance. The staples sector also provided resilience, with Italian Wine Brands SpA returning +63% in 2020 amid a surge in their operating profit propelled by a pickup in the consumption of wines at home.

On the negative side, the bulk of losses were incurred in Autostrade Meridionali SpA, Safilo Group SpA, Alkemy SpA, Basicnet SpA, K+S AG and FNM SpA which respectively posted for the full year 2020: -37%, -28%, - 20%, -20%, -30% and -18%

The Sub-Fund aims at maintaining a balanced, unconstrained and global approach to equity investing in order to provide investors with exposure across sectors and geographies and to allocate capital to seize opportunities in both fast-growing markets and recovering industries.

For details of significant events after the year end effecting the Sub-Fund, please refer to note 18.

Report of the Depositary to the Shareholders For the year ended 31 December 2020

We, CACEIS Bank, Ireland Branch, appointed Depositary to Praude Funds ICAV (the "ICAV") provide this report solely in favour of the Shareholders of the ICAV for the year ended 31 December 2020 (the "Period"). This report is provided in accordance with current Depositary Regulations¹. We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Depositary obligations, we have enquired into the conduct of the Alternative Investment Fund Manager, European & Global Investments Limited for this Period and we hereby report thereon to the shareholders of the ICAV as follows;

We are of the opinion that the ICAV has been managed during the Period, in all material respects:

(i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the constitutional document and by the Central Bank of Ireland ("CBI") under the powers granted to the CBI by the investment fund legislation; and

(ii) otherwise in accordance with the provisions of the constitutional document and the investment fund legislation.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF PRAUDE FUNDS ICAV

Report on the audit of the annual accounts

Opinion on the annual accounts of Praude Funds ICAV (the 'ICAV')

In our opinion the annual accounts:

- give a true and fair view of the assets, liabilities and financial position of the ICAV as at 31 December 2020 and of the result for the financial year then ended; and
- have been properly prepared in accordance with the relevant financial reporting framework and the applicable Regulations.

The annual accounts we have audited comprise:

- the Statement of Financial Position;
- the Statement of Comprehensive Income;
- the Statement of Changes in Equity;
- the Statement of Cash Flows; and
- the related notes 1 to 20, including a summary of significant accounting policies as set out in note 3.

The relevant financial reporting framework that has been applied in their preparation is the Irish Collective Asset-Management Vehicles Act 2015 ("the ICAV Act") and International Financial Reporting Standards as adopted by the European Union ("IFRS") ("the relevant financial reporting framework").

The applicable regulations that have been applied in their preparation is the European Union (Alternative Investment Fund Managers) Regulations 2013 (as amended) and the Commission Delegated Regulation (EU) No.231/2013 ("the applicable Regulations").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are described below in the "Auditor's responsibilities for the audit of the annual accounts" section of our report.

We are independent of the ICAV in accordance with the ethical requirements that are relevant to our audit of the annual accounts in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the annual accounts, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the annual accounts is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the ICAV's ability to continue as a going concern for a period of at least twelve months from when the annual accounts are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the Annual Report and Audited Financial Statements, other than the annual accounts and our auditor's report thereon. The directors are responsible for the other information contained within the Annual Report and Audited Financial Statements. Our opinion on the annual accounts does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

/Continued from previous page

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF PRAUDE FUNDS ICAV

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the annual accounts or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the annual accounts or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of directors

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of annual accounts that give a true and fair view and have been properly prepared in accordance with the ICAV Act, and for such internal control as the directors determine is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the directors are responsible for assessing the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the annual accounts

Our objectives are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

As part of an audit in accordance with ISAs (Ireland), we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual accounts, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the ICAV's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ICAV's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the annual accounts or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause the entity (or where relevant, the group) to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual accounts, including the disclosures, and whether the annual accounts represent the underlying transactions and events in a manner that achieves fair presentation.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF PRAUDE FUNDS ICAV

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that the auditor identifies during the audit.

Report on other legal and regulatory requirements

Matters on which we are required to report by the ICAV Act and the applicable Regulations

In our opinion, the information given in the directors' report is consistent with the annual accounts and the directors' report has been prepared in accordance with the ICAV Act.

Matters on which we are required to report by exception

Based on the knowledge and understanding of the ICAV and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

We have nothing to report in respect of the provisions in the ICAV Act which require us to report to you if, in our opinion, the disclosures of directors' remuneration specified by the ICAV Act are not made.

Opinion on other matters prescribed by the applicable Regulations

Based solely on the work undertaken in the course of the audit, we report that:

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the ICAV were sufficient to permit the annual accounts to be readily and properly audited.
- The annual accounts are in agreement with the accounting records.

Use of our report

This report is made solely to the ICAV's shareholders, as a body, in accordance with Section 120(1) (b) of the ICAV Act. Our audit work has been undertaken so that we might state to the ICAV's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the ICAV's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

Christian Macmanus For and on behalf of Deloitte Ireland LLP Chartered Accountants and Statutory Audit Firm Deloitte & Touche House, 29 Earlsfort Terrace, Dublin 2

Notes to the Financial Statements For the year ended 31 December 2020

1 Reporting entity

Praude Funds ICAV (the "ICAV") is an umbrella type Irish Collective Asset-management Vehicle with segregated liability between its Sub-Funds established under the laws of Ireland on 5 March 2018 and regulated by the Central Bank of Ireland (the "Central Bank") under registration number C178344. It is authorised in Ireland by the Central Bank pursuant to Part 2 of the ICAV Act 2015, as a Qualifying Investor Alternative Investment Fund on 6 April 2018.

The ICAV has established two Sub-Fund's, the Praude Total Return Fund which was authorised on 6 April 2018 and commenced operations on 2 May 2018 and the Praude Pure Equity Fund which was authorised on 17 July 2018 and commenced operations on 19 December 2018 (individually the "Sub-Fund", together the "Sub-Funds").

The investment objective of the Praude Total Return Fund is to seek the highest level of long-term total return which includes capital growth, interest and dividends received.

The investment objective of the Praude Pure Equity Fund is to achieve long-term appreciation principally through value investing in the major equity markets.

On 28 January 2021, the Directors formally made the decision that it was no longer practical or viable to continue to operate the Praude Pure Equity Fund and it was in the best interest of the Shareholders to terminate the Sub-Fund. The Sub-Fund terminated as at 30 April 2021.

Praude Asset Management Limited acts as the Investment Manager (the "Investment Manager") to the ICAV.

European & Global Investments Limited acts as the Alternative Investment Fund Manager (the "AIFM") to the ICAV.

2 Basis of preparation

(a) Statement of compliance

The financial statements of the ICAV for the year ended 31 December 2020 have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union.

(b) New standards and interpretations

The standards and interpretations below and overleaf apply for the first time to financial reporting periods commencing on or after 1 January 2020:

Definition of material – amendments to IAS 1 and IAS 8

The IASB has made amendments to IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors which use a consistent definition of materiality throughout International Financial Reporting Standards and the Conceptual Framework for Financial Reporting, clarify when information is material and incorporate some of the guidance in IAS 1 about immaterial information.

In particular, the amendments clarify:

- that the reference to obscuring information addresses situations in which the effect is similar to omitting or misstating that information, and that an entity assesses materiality in the context of the financial statements as a whole, and
- the meaning of 'primary users of general purpose financial statements' to whom those financial statements are directed, by defining them as 'existing and potential investors, lenders and other creditors' that must rely on general purpose financial statements for much of the financial information they need.

Notes to the Financial Statements (continued) For the year ended 31 December 2020

2 Basis of preparation (continued)

(b) New standards and interpretations (continued)

Interest rate benchmark reform – amendments to IFRS 7, IFRS 9 and IAS 39

The amendments modify some specific hedge accounting requirements to provide certain reliefs in connection with interest rate benchmark reform. The reliefs relate to hedge accounting and have the effect that IBOR reform should not generally cause hedge accounting to terminate. However, any hedge ineffectiveness should continue to be recorded in the income statement. Given the pervasive nature of hedges involving IBOR-based contracts, the reliefs will affect companies in all industries.

The adoption of these standards did not have a material impact on the ICAV. A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2021, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the ICAV.

(c) Basis of measurement

The financial statements have been prepared on an historical cost basis, except for financial assets and financial liabilities classified at fair value through profit and loss which have been measured at fair value.

(d) Functional and presentation currency

Functional currency is the currency of the primary economic environment in which the ICAV operates. When indicators of the primary economic environment are mixed, management uses its judgement to determine the functional currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. Management have determined that the functional currency of the ICAV is the Euro ("EUR"). The majority of the ICAV's investments and transactions are denominated in EUR. Investor subscriptions and redemptions are received and paid in the currency of the share class.

(e) Use of estimates and judgements

The preparation of the financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of financial assets, financial liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the year in which the estimates are revised and in any future years affected.

Information about significant areas of estimation and uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are described in note 8.

Notes to the Financial Statements (continued) For the year ended 31 December 2020

3 Significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below.

(a) Financial assets and financial liabilities at fair value through profit or loss

(i) Classification

Financial assets:

The ICAV classifies its investments based on both the ICAV's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The ICAV is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The ICAV has not taken the option to irrevocably designate any equity securities or investment funds as fair value through other comprehensive income. Consequently, all investments are measured at fair value through profit or loss.

Financial assets measured at amortised cost:

The ICAV includes in this category short-term non-financing receivables including cash and cash equivalents, margin cash, due from broker, interest receivable, dividend receivable and other assets. The ICAV holds only trade receivables with no financing component and which have maturities of less than 12 months at amortised cost and, as such, has chosen to apply the simplified approach for expected credit losses (ECL) under IFRS 9 to all its trade receivables.

Financial liabilities:

Derivative financial instruments that have a negative fair value are presented as financial liabilities at fair value through profit or loss. As such, the ICAV classifies all of its investment portfolio as financial assets or financial liabilities as fair value through profit or loss.

The ICAV policy requires the Investment Manager and the Board of Directors to evaluate the information about these financial assets and financial liabilities on a fair value basis together with other related financial information.

(ii) Recognition

Financial assets and financial liabilities at fair value through profit or loss are recognised when the ICAV becomes party to the contractual provisions of the instrument.

Recognition takes place on the trade date where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned.

(iii) Measurement

Financial assets and financial liabilities at fair value through profit or loss are initially recognised at cost. Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss are presented in the Statement of Comprehensive Income in the year in which they arise.

(iv) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and financial liabilities traded in active markets (such as publicly traded derivative financial instruments and trading securities) are based on quoted market prices at the close of trading on the reporting date.

Notes to the Financial Statements (continued) For the year ended 31 December 2020

3 Significant accounting policies (continued)

(a) Financial assets and financial liabilities at fair value through profit or loss (continued)

(v) Derecognition

The ICAV derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or when it transfers the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the ICAV neither transfers nor retains substantially all the risks and rewards of ownership and does not retain control of the financial asset.

Any interest in transferred financial assets that qualify for derecognition that is created or retained by the ICAV is recognised as a separate asset or liability in the Statement of Financial Position. On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised), and the consideration received (including any new asset obtained less any new liability assumed) is recognised in the Statement of Comprehensive Income.

(vi) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the Statement of Financial Position when and only when the ICAV has a legal right to offset the amounts and it intends to settle on a net basis or to realise the asset and settle the liability simultaneously.

(vii) Listed equity securities and investment funds

For investments in listed equity securities and investment funds, the fair value is based on their quoted market price on a recognised exchange or sourced from a reputable broker/counterparty in the case of non-exchange traded investments, as at the Statement of Financial Position date without any deduction for estimated future selling costs. The ICAV utilises the last available price of the relevant stock exchange or regulated market on which these securities are traded or admitted for trading. If the market for a financial instrument is not active, an entity establishes fair value by using a valuation technique. Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties, if available, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis and option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in the actual market. No valuation techniques were used as at 31 December 2020.

(viii) Forward foreign exchange contracts

Forward foreign exchange contracts are recognised in the Statement of Financial Position at their fair value. Forward foreign exchange contracts entered into by the ICAV represent a firm commitment to buy or sell an underlying asset or currency at a specified value and point in time based upon an agreed or contracted quantity. The unrealised gain or loss is equal to the difference between the value of the contract at the onset and the value of the contract at settlement date/year end date.

(ix) Futures

Futures are contracts for delayed delivery of commodities, securities or money market instruments in which the seller agrees to make delivery at a specified future date of a specified commodity or instrument, at a specified price or yield. Gains and losses on futures are recorded by the Sub-Funds based upon market fluctuations and are recorded as realised or unrealised gains or losses in the Statement of Comprehensive Income.

(x) Options

An option gives the purchaser the right, but not the obligation, upon exercise of the option, either (i) to buy or sell a specific amount of the underlying security or commodity/currency interest at a specific price (the "strike" price or "exercise" price), or (ii) in the case of a stock index option, to receive a specified cash settlement. To purchase an option, the purchaser must pay a "premium," which consists of a single, non-refundable payment. Premiums received from writing options are marked-to-market and the resulting gains or losses are recorded in the Statement of Comprehensive Income.

Notes to the Financial Statements (continued) For the year ended 31 December 2020

3 Significant accounting policies (continued)

(a) Financial assets and financial liabilities at fair value through profit or loss (continued)

(xi) Government/Corporate Bonds

A government/corporate bond is a debt security issued by a government/private company to support spending. The fair value of the government/corporate bond is determined by active market prices.

(xii) Income and expenses

Income and expenses are presented separately in the Statement of Comprehensive Income. Net realised gain/(loss) from financial assets and financial liabilities at fair value through profit or loss and net unrealised gain/(loss) from financial assets and financial liabilities at fair value through profit or loss are presented net in the Statement of Comprehensive Income in the net realised and unrealised gain/(loss) from financial assets and financial liabilities at fair value through profit or loss are presented net in the Statement of Comprehensive Income in the net realised and unrealised gain/(loss) from financial assets and financial liabilities at fair value through profit or loss are presented net in the Statement of a fair value through profit or loss and financial liabilities at fair value through profit or loss and financial liabilities at fair value through profit or loss and financial liabilities at fair value through profit or loss and financial liabilities at fair value through profit or loss and financial liabilities at fair value through profit or loss and financial liabilities at fair value through profit or loss and financial liabilities at fair value through profit or loss and foreign exchange line.

(b) Foreign currency

Transactions in foreign currencies are translated into EUR at the exchange rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the Statement of Financial Position date are translated into EUR at the foreign currency closing exchange rate ruling at that date.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value through profit or loss are translated into EUR at the exchange rate at the date that the fair value was determined. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated into EUR using the exchange rate at the date of the transaction.

Foreign currency differences arising on translation and on derivative financial instruments at fair value through profit or loss are recognised in the Statement of Comprehensive Income in the net realised and unrealised gain/(loss) from financial assets and financial liabilities at fair value through profit or loss and foreign exchange line.

(c) Interest income and interest expense

Interest is recognised on a time-proportionate basis using the effective interest method. Interest income on financial assets includes interest from debt securities. Bank interest income includes interest from cash and cash equivalents. Interest expense includes expense on bank overdraft positions.

(d) Taxation

The ICAV is an investment undertaking as defined in section 739B of the Taxes Consolidation Act, 1997. Therefore, the ICAV will not be liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event. A chargeable event includes any distribution payments to shareholders or any encashment, redemption or transfer of Shares or the ending period for which the investments was held.

Generally, a chargeable event arises on any distributions, redemption, repurchase, cancellation, transfer of Shares or the ending of a "relevant period". A relevant period is an eight-year period beginning with the acquisition of the Shares by the shareholder and each subsequent period of eight years beginning immediately after the preceding relevant period.

Notes to the Financial Statements (continued) For the year ended 31 December 2020

3 Significant accounting policies (continued)

(d) Taxation (continued)

A gain on a chargeable event does not arise in respect of:

- i) a shareholder who is not an Irish resident and not ordinarily resident in Ireland at the time of the chargeable event, provided the necessary signed statutory declarations are held by the ICAV;
- ii) certain exempted Irish tax resident investors who have provided the ICAV with the necessary signed statutory declarations;
- iii) an exchange of Shares arising on a qualifying amalgamation or reconstruction of the ICAV with another fund;
- iv) any transaction in relation to Shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland;
- v) certain exchanges of Shares between spouses and former spouses on the occasion of judicial separation and/or divorce;
- vi) an exchange by a shareholder, effected by way of an arm's length bargain where no payment is made to the shareholder of shares in the ICAV for other Shares in the ICAV.

Capital gains, dividends and interest (if any) received on investments made by the ICAV may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the ICAV or its shareholders.

In the absence of an appropriate declaration, the ICAV will be liable for Irish tax on the occurrence of a chargeable event, and the ICAV reserves its right to withhold such taxes from the relevant shareholders. There were no chargeable events in the year under review.

(e) Fees, commissions and other operating expenses

Fees, commissions and other operating expenses are recognised in Statement of Comprehensive Income on an accrual basis.

(f) Cash and cash equivalents and bank overdraft

Cash and cash equivalents comprise cash balances and call deposits with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value and are used by the ICAV in the management of its short-term commitments. As at 31 December 2020, cash and cash equivalents and bank overdrafts are held with CACEIS Bank, Ireland Branch (31 December 2019: Same).

(g) Margin cash

Margin cash consists of cash holdings with brokers transferred as collateral against derivatives. As at 31 December 2020, margin cash was held with CACEIS Bank, Ireland Branch (31 December 2019: N/a).

(h) Shares

All redeemable shares issued by the Sub-Funds provide the investors with the right to require redemption for cash at the value proportionate to the investors share in the respective Sub-Fund's Net Asset Value at the redemption date. In accordance with IAS 32, "Financial Instruments: Presentation", such instruments give rise to a financial liability for the present value of the redemption amount.

Notes to the Financial Statements (continued) For the year ended 31 December 2020

3 Significant accounting policies (continued)

(i) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss plus, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on the purchase and sale of some derivative financial instruments are included in the purchase and sale price of the investment. The transaction costs on these investments cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed.

(j) Establishment expenses

All fees and expenses relating to the establishment and organisation of the ICAV and the initial Sub-Funds including regulatory fees and the fees of the ICAV's professional advisers (including legal, accounting and taxation advisers) will be borne by the ICAV and amortised over the first three years of the ICAV's operation and charged to the initial Sub-Funds (and at the discretion of the Directors, any other Sub-Funds established by the ICAV within such three year period), on such terms and in such manner as the Directors may in their discretion determine. The cost of establishing subsequent Sub-Funds will be charged to that Sub-Fund and disclosed in the relevant Sub-Fund's Supplement.

However, as required by IFRS, this expense must be written off when incurred and as a result, these financial statements have been adjusted accordingly. This is for financial statements purposes only and it has no impact on the Dealing Net Asset Value. Please refer to note 15 for further details.

(k) Dividend income

Dividend income arising on the equity securities held by the ICAV is recognised as income of the ICAV on the exdividend date. Dividend income is shown gross of any non-recoverable withholding taxes, which is disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

(l) Subscription received in advance

Subscriptions receivable and redemptions payable represent amounts due from or to investors for share dealing contracted but unsettled as at the Statement of Financial Position date.

Notes to the Financial Statements (continued) For the year ended 31 December 2020

5 Fees

Investment management fees

The ICAV shall pay to the Investment Manager out of the assets of each Sub-Fund a monthly fee of up to 1.00% of the Net Asset Value of the Praude Total Return Fund and a monthly fee of 1.30% of the Net Asset Value of the Praude Pure Equity Fund, accrued at each valuation point and payable monthly in arrears (plus VAT, if any).

The Investment Manager shall also be entitled to be reimbursed out of the assets of the Sub-Funds for reasonable out-of-pocket expenses incurred by it in the performance of its duties (plus VAT, if any).

The investment management fees charged for the year ended 31 December 2020 to the Praude Total Return Fund amounted to EUR 380,916 (31 December 2019: EUR 317,118) of which EUR 38,786 (31 December 2019: EUR 32,353) was payable as at the year end.

The investment management fees charged for the year ended 31 December 2020 to the Praude Pure Equity Fund amounted to EUR 280,912 (31 December 2019: EUR 259,353) of which EUR 22,733 (31 December 2019: EUR 29,304) was payable as at the year end.

AIFM fees

The AIFM is entitled to receive out of the assets of the Sub-Funds an AIFM fee, accrued and calculated at each valuation day and payable monthly in arrears at a rate of 0.10% per annum of the Net Asset Value where the asset size of the respective Sub-Fund is up to EUR 50 million and 0.05% of the Net Asset Value in excess of EUR 50 million. The AIFM fee is subject to an overall minimum fee of EUR 30,000 per annum per Sub-Fund.

The AIFM fees charged to the ICAV for the year ended 31 December 2020 amounted to EUR 68,174 (31 December 2019: EUR 62,406) of which EUR 6,194 (31 December 2019: EUR 7,406) was payable as at the year end.

Performance fees

In addition to the investment management fees payable to Investment Manager as set out above, the Investment Manager shall be entitled to receive out of the assets of the Sub-Funds a fee based on the performance of the Sub-Funds (the "Performance Fee").

The Performance Fee shall be calculated on the basis of the Net Asset Value per Share. The Performance Fee shall be equal to 15% of the amount by which the Net Asset Value per Share (before the deduction of the Performance Fee) has exceeded the Net Asset Value Target per Share during the Performance Period multiplied by the average number of Shares in issue taken at each Valuation Point during that Performance Period.

The "NAV Target per Share" is equal to the highest of (i) the highest NAV per Share as at the end of any previous accounting period on which a Performance Fee was paid (the "Highest NAV") or (ii) the Initial Offer Price. The Performance Period shall run from the first business day of the accounting period to the last Business Day of the accounting period or in the case of the first Performance Period, the Performance Period will commence on the first Business Day subsequent to the Initial Offer Period and will end on the last Business Day of the accounting period.

The Performance Fee will accrue on each Valuation Day and be payable annually in arrears at the end of each Performance Period within four months of the Performance Period.

The Directors waived the performance fee for the Praude Total Return Fund. Therefore the Praude Total Return Fund did not incur any performance fees for the year ended 31 December 2020 or the year ended 31 December 2019.

The performance fees charged for the year ended 31 December 2020 to the Praude Pure Equity Fund amounted to EUR Nil (31 December 2019: EUR 442,909, with EUR 447,272 payable as at the year end).

Notes to the Financial Statements (continued) For the year ended 31 December 2020

5 Fees (continued)

Administration fees

The Administrator is entitled to receive out of the assets of the Sub-Funds an annual fee, accrued at each valuation point and payable monthly in arrears at a rate of:

- (i) 0.07% per annum on the first EUR 100 million of the Net Asset Value of the Sub-Fund; and
- 0.06% per annum on the Net Asset Value of the respective Sub-Fund between EUR 100 million and EUR 300 million; and
- (iii) 0.05% per annum on the Net Asset Value of the respective Sub-Fund in excess of EUR 300 million.

The administration fee is subject to a minimum fee of EUR 30,000 per annum per Sub-Fund. The Administrator is also entitled to recover any out-of-pocket expenses (plus VAT thereon, if any) reasonably incurred on behalf of the Sub-Funds out of the assets of the Sub-Funds on an actual cost basis.

The administration fees charged to the ICAV for the year ended 31 December 2020 amounted to EUR 72,283 (31 December 2019: EUR 79,489) of which EUR 4,993 (31 December 2019: EUR 6,116) was payable as at the year end.

Depositary fees

CACEIS Bank, Ireland Branch (the "Depositary") is entitled to receive an annual fee of up to a maximum of 0.035% of the Net Asset Value of the Sub-Funds, accrued at each valuation point and payable monthly in arrears. The depositary fee is subject to a minimum fee of EUR 24,000 per annum per Sub-Fund.

The depositary fees charged to the ICAV for the year ended 31 December 2020 amounted to EUR 62,310 (31 December 2019: EUR 70,020) of which EUR 4,000 (31 December 2019: EUR 4,000) was payable as at the year end.

The Depositary is also entitled to transaction and cash service charges and to recover properly vouched out-ofpocket expenses out of the assets of the Sub-Funds (plus VAT thereon, if any) which shall be payable quarterly in arrears.

Directors' fees

The Directors (other than such persons who are directors or officers or employees of other companies affiliated to the AIFM) are authorised to charge a fee for their services at a rate determined by the Directors and may be entitled to special remuneration if called upon to perform any special or extra services to the ICAV. The maximum pretax fee payable to each Director, in any one calendar year, is currently EUR 50,000.

The Directors' fees charged to the ICAV for the year ended 31 December 2020 amounted to EUR 17,078 (31 December 2019: EUR 20,813) of which EUR Nil (31 December 2019: EUR 343) was payable as at the year end.

Auditors' remuneration

The auditors' remuneration charged to the ICAV for the year ended 31 December 2020 was EUR 18,150 (31 December 2019: EUR 18,450) of which EUR 18,150 (31 December 2019: EUR 18,450) was payable as at the year end. Except for statutory audit fees, there were no other fees paid to Deloitte Ireland LLP.

Notes to the Financial Statements (continued) For the year ended 31 December 2020

Other expenses	10,842	9,449
	48,240	41,499

6 Derivative financial instruments

Typically, derivative financial instruments serve as components of the Sub-Funds' investment strategies and are utilised primarily to structure and economically hedge investments to enhance performance and reduce the risk to the Sub-Funds. The Sub-Funds record their derivative activities on a mark-to-market basis.

During the year ended 31 December 2020, the Sub-Funds entered into forward foreign exchange contracts and futures (during the year ended 31 December 2019, the Praude Total Return Fund entered into futures and options and the Praude Pure Equity Fund did not enter into any derivative financial instruments).

As at 31 December 2020, the Praude Total Return Fund did not hold any derivative financial instruments and the Praude Pure Equity Fund held futures (31 December 2019: the Sub-Funds did not hold any derivative financial instruments). As at 31 December 2020, the counterparty for the futures held by the Praude Pure Equity Fund was CACEIS Bank.

Notes to the Financial Statements (continued) For the year ended 31 December 2020

7 Efficient portfolio management

Subject to the conditions and within the limits from time to time laid down by the Central Bank, and except as otherwise stated in the investment objective and policies of the ICAV, the Investment Manager may employ investment techniques and instruments such as forward foreign exchange contracts, futures, swaps and options for efficient portfolio management purposes. Furthermore, new techniques and instruments may be developed which may be suitable for use by the ICAV in the future, and the ICAV may employ such techniques and instruments subject to the prior approval of, and any restrictions imposed by, the Central Bank. During the year ended 31 December 2020, the Sub-Funds entered into forward foreign exchange contracts and futures for the purpose of hedging and speculation in order to re-position the portfolio of the ICAV in light of changing market conditions (during the year ended 31 December 2019, the Praude Total Return Fund entered into futures and options and the Praude Pure Equity Fund did not enter into any derivative financial instruments).

Realised and unrealised gains and losses on derivative financial instruments entered into during the years ended 31 December 2020 and 31 December 2019 are as below:

	Praude Total R 31 Decembe		Praude Pure E 31 Decembe

			(8,640)	

Transaction costs are embedded in the cost of the derivative financial instruments and therefore cannot be separately disclosed.

As at 31 December 2020, the Praude Total Return Fund did not hold any derivative financial instruments and the Praude Pure Equity Fund held futures (31 December 2019: the Sub-Funds did not hold any derivative financial instruments).

Notes to the Financial Statements (continued) For the year ended 31 December 2020

8 Financial instruments and associated risks

(a) Overall risk management

The ICAV is exposed to a number of risks due to the nature of its activities. These risks include credit risk, liquidity risk and market risk (including currency risk, interest rate risk and price risk). The risks detailed below should be considered in conjunction with the risks detailed in the Prospectus.

The ICAV is also exposed to operational risk such as custody/counterparty risk. Custody/counterparty risk is the risk of loss being incurred on securities in custody as a result of the counterparty's or the Depositary's insolvency, negligence, misuse of assets, fraud, poor administration or inadequate record keeping. In the event that one of the ICAV's counterparties or the Depositary becomes bankrupt and/or fails to segregate the ICAV's assets on deposit as required, the ICAV may be subject to a risk of loss.

All securities investments present a risk of loss of capital. The maximum loss of capital on equity securities is limited to the fair value of those positions. On short future positions, the maximum loss of capital can be unlimited and on long future positions, it is limited to the notional contract values of those positions.

The ICAV's Investment Manager is responsible for managing these risks in line with the ICAV's investment objectives. The Directors supervise the Investment Manager and are ultimately responsible for the overall risk management of the ICAV. The policies employed by the ICAV to measure, monitor and manage these risks are discussed below.

(b) Credit risk

Credit risk is the risk that an issuer or counterparty will be unable to meet a commitment that it has entered into with the ICAV. There is a possibility that an issuer will be unable to make interest payments and repay principal when due. Changes in an issuer's financial strength or in a financial instrument's credit rating may affect a financial instrument's value.

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payments. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

Bankruptcy or insolvency of the Depositary or counterparties may cause the ICAV's rights with respect to securities held by the Depositary or counterparty to be delayed or limited in certain cases. The ICAV monitors its risk by monitoring the credit quality and financial positions of the Depositary and counterparties the ICAV uses.

The credit risk on cash transactions and transactions involving derivative financial instruments is mitigated by transacting with counterparties that are regulated entities subject to prudential supervision, or with counterparties with high credit ratings assigned by a recognised rating agency.

The ICAV was exposed to credit risk on cash and cash equivalents, margin cash, listed equity securities, investment funds, corporate bonds, warrants, forward foreign exchange contracts, futures and options that it held during the years ended 31 December 2020 and 31 December 2019. The Investment Manager monitors the ICAV's credit position on an ongoing basis.

As at 31 December 2020, the Praude Total Return Fund held two corporate bonds both with a credit risk classification of Non-Rated.

As at 31 December 2020, the Praude Pure Equity Fund held one corporate bond with a credit risk classification of Non-Rated.

Notes to the Financial Statements (continued) For the year ended 31 December 2020

8 Financial instruments and associated risks (continued)

(b) Credit risk (continued)

Counterparty risk

Cash deposits and investments are held with the Depositary. The ICAV was also exposed to counterparty risk in respect of the derivative financial instruments entered into during the years ended 31 December 2020 and 31 December 2019. The Depositary had a credit rating of A+ as at 31 December 2020 (31 December 2019: A+) with Standard and Poor's.

Offsetting financial assets and financial liabilities

Transactions with counterparties are governed by agreements. Under IFRS 7 Financial Instruments Disclosures, the ICAV is required to disclose both gross and net information for derivatives and other financial instruments that are either offset in the Statement of Financial Position or subject to an enforceable master netting agreement or similar agreement.

Under the terms of the master netting agreement, collateral can only be seized by a party in the event of default of the other party. An event of default includes the following:

- failure by a party to make a payment when due;
- failure by a party to perform any obligation required by the agreement (other than payment) if such failure is not remedied by the end of the business day following the business day after notice of such failure is given to the party; or
- bankruptcy.

The ICAV does not offset financial assets and financial liabilities that are subject to master netting arrangements or similar agreements in the Statement of Financial Position.

As at 31 December 2020, the Praude Total Return Fund did not hold any derivative financial instruments and the Praude Pure Equity Fund held futures (31 December 2019: the Sub-Funds did not hold any derivative financial instruments).

Notes to the Financial Statements (continued) For the year ended 31 December 2020

Notes to the Financial Statements (continued) For the year ended 31 December 2020

8 Financial instruments and associated risks (continued)

(c) Liquidity risk

Liquidity risk is the risk that the ICAV may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Sub-Funds' redeemable Shares are redeemable at the shareholder's option fortnightly for cash equal to a proportionate share of the applicable Sub-Fund's Net Asset Value. The Sub-Funds are therefore potentially exposed to fortnightly redemptions by their shareholders.

The Sub-Funds invest in marketable highly liquid securities and other financial instruments, which under normal market conditions are readily convertible to cash. The liquidity profile of the investments of the Sub-Funds are appropriately aligned with the ICAV's redemption policy.

Some markets, on which the Sub-Funds may invest in, may prove at time to be insufficiently liquid or illiquid. This affects the market price of the Sub-Funds' securities and therefore their Net Asset Value. Furthermore, there is a risk that, because of a lack of liquidity and efficiency in certain markets due to unusual market conditions or unusual high volumes of repurchase requests or other reason, the Sub-Funds may experience some difficulties in purchasing or selling holdings of securities and, therefore, meeting subscriptions and redemptions in the time scale indicated in the relevant supplement. In such circumstances, the Directors may, in accordance with the ICAV's Instrument and in the Shareholders' interests, suspend subscriptions and redemptions or extend the settlement timeframe.

The Investment Manager monitors the Sub-Funds' liquidity risk on a daily basis in accordance with the Sub-Funds' investment objectives, policies and investment guidelines. The ICAV's overall liquidity positions are reviewed on a daily basis for the Sub-Funds.

The tables below and overleaf detail the Sub-Funds' remaining contractual maturity for its financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Sub-Funds can be required to pay.

The following tables set out the Sub-Fund's total exposure to liquidity risk:

As at 31 December 2020

Praude Total Return Fund	<1 Month EUR	1 - 3 Months EUR	3 - 12 Months EUR	Over 12 Months EUR	Total EUR

(d) Market risk

Despite not having any Value at Risk (VaR) limitation, the ICAV employs an advanced risk management methodology which monitors global exposure using a risk management process which, aims to ensure that on any day the absolute VaR of the Sub-Funds will be limited and kept in an acceptable range. The daily VaR will be calculated using 99% confidence level, and the historical observation period will not be less than one year unless a shorter period is justified.

	VaR	VaR
Sub-Fund	31 December 2020	31 December 2019
Praude Total Return Fund	3.36%	1.62%
Praude Pure Equity Fund	2.59%	1.73%

Some limitations of VaR/sensitivity analysis are:

- (a) the models are based on historical data and cannot take account of the fact that future market price movements, correlations between markets and levels of market liquidity in conditions of market stress may bear no relation to historical patterns;
- (b) the market price risk information is a relative estimate of risk rather than a precise and accurate number;
- (c) the market price information represents a hypothetical outcome and is not intended to be predictive (in the case of probability-based methods, such as VaR, profits and losses are almost certain to exceed the reported amount with a frequency depending on the confidence interval chosen); and
- (d) future market conditions could vary significantly from those experienced in the past.

Notes to the Financial Statements (continued) For the year ended 31 December 2020

8 Financial instruments and associated risks (continued)

(d) Market risk (continued)

(i) Global exposure and leverage

The use of derivative financial instruments may expose the Sub-Funds to a higher degree of risk, in particular derivative financial instruments can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivative financial instruments than on standard instruments. Leveraged derivative financial instruments can therefore increase the volatility of the Sub-Funds.

The Sub-Funds will typically gain leverage through the use of derivative financial instruments and may transfer, mortgage, charge or encumber any assets or cash forming part of its assets for the purpose of providing margin or collateral in respect of the Sub-Funds' investment activities.

The maximum leverage of the Praude Total Return Fund, calculated in accordance with the Level 2 Regulation, will be a maximum of 3 times the Net Asset Value of the Sub-Fund, using the "commitment" method, and 6 times the Net Asset Value of the Sub-Fund, using the "gross" method.

The maximum leverage of the Praude Pure Equity Fund, calculated in accordance with the Level 2 Regulation, will be a maximum of 300 times the Net Asset Value of the Sub-Fund, using the "commitment" method, and 600 times the Net Asset Value of the Sub-Fund, using the "gross" method.

Disclosed in the table below is the total leverage employed during the years ended 31 December 2020 and 31 December 2019:

	Total leverage employed using the commitment method during the year ended	Total leverage employed using the commitment method during the year ended
Sub-Fund	31 December 2020	31 December 2019
Praude Total Return Fund	Nil	Nil
Praude Pure Equity Fund	5.71%	Nil

(ii) Price risk

Market price risk arises mainly from uncertainty about future prices of investments held, which are classified as financial assets at fair value through profit or loss. It represents the potential loss that the ICAV might suffer, through its holdings in the face of price movements. The Investment Manager of the Sub-Funds reviews the positions and gains and losses on a daily basis to monitor the underlying risks. Market price risk is managed by the Investment Manager through careful selection of securities and other financial instruments within the Sub-Funds' mandates and specified limits. The Investment Manager maintains the Sub-Funds overall exposures making sure they fall within the diversification limits of the Sub-Funds.

The following table details the movement in net assets that would result if market prices of the investments held by the Sub-Funds had increased/(decreased) by 5% as at 31 December 2020:

31 December 2020	Praude Total	Praude Pure
	Return Fund	Equity Fund
	EUR	EUR
Net financial assets and financial liabilities at fair value through profit or loss	44,621,712	17,762,072
Net financial assets and financial liabilities movement if market prices had increased/(decreased) by 5%	+/- 2,231,086	+/- 888,104

Notes to the Financial Statements (continued) For the year ended 31 December 2020

8 Financial instruments and associated risks (continued)

(d) Market risk (continued)

(ii) Price risk (continued)

The following table details the movement in net assets that would result if market prices of the investments held by the Sub-Funds had increased/(decreased) by 5% as at 31 December 2019:

31 December 2019	Praude Total Return Fund	Praude Pure Equity Fund
	EUR	EUR
Net financial assets and financial liabilities at fair value through profit or loss	36,472,091	25,470,582
Net financial assets and financial liabilities movement if market prices had		
increased/(decreased) by 5%	+/- 1,823,605	+/- 1,273,529

Limitations to sensitivity analysis:

This sensitivity analysis is not necessarily indicative of the effect on the Sub-Funds' Net Asset Values as future market movements are impossible to predict. The analysis is based on historical data and cannot take into account of the fact that future market price movements and the portfolio of the Sub-Funds may bear no relation to historical patterns.

(iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The following tables below detail the interest rate risk associated with the assets and liabilities of the ICAV as at 31 December 2020:

Praude Total Return Fund	Fixed Rate Interest EUR	Floating Rate Interest EUR	Non Interest Bearing EUR	Total EUR

Notes to the Financial Statements (continued) For the year ended 31 December 2020

8 Financial instruments and associated risks (continued)

(d) Market risk (continued)

(iv) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

The ICAV may invest in financial instruments denominated in currencies other than the base currency or in financial instruments which are determined with references to currencies other than the base currency.

The Sub-Funds, however, will invest a portion of their assets in financial instruments denominated in EUR or in financial instruments which are determined with references to EUR. To the extent that the base currency is a denomination other than the denomination of the financial instruments owned by the Sub-Funds and no hedge is utilised, the value of the Sub-Funds' net assets will fluctuate based on fluctuations of the exchange rates as well as with price changes of their investments in the various local markets and currencies.

An increase in the value of the EUR compared to the other currencies in which the Sub-Funds may make investments will reduce the effect of increases and magnify the EUR equivalent of the effect of decreases in the prices of the Sub-Funds' financial instruments in their local markets.

Conversely, a decrease in the value of the EUR will have the opposite effect of magnifying the effect of increases and reducing the effect of decreases in the prices of the Sub-Funds' non-EUR financial instruments. It may not be possible or practical to hedge against the consequent currency risk exposure and in certain instances the Investment Manager may consider it desirable not to hedge against such risk.

Currency risk is managed in the Sub-Funds by monitoring their overall currency exposures and ensuring they fall within the Sub-Funds' specified mandates and limits. The Investment Manager uses futures and options for hedging purposes at portfolio level.

The carrying amount of the Sub-Fund's foreign denominated financial assets and financial liabilities as at 31 December 2020 is as follows:

Praude Total Return Fund

	Financial Assets/	Net Other Assets/		Impact to	Impact to

(e) Fair value of financial instruments

The ICAV is required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. In accordance with IFRS 13, the inputs have been categorised into a three-level hierarchy which gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to significant unobservable inputs (Level 3). If the inputs used to value an investment fall within different levels of the hierarchy, the categorisation is based on the lowest level input that is significant to the fair value measurement of the investment.

The tables overleaf provide an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to Level 3 based on the degree to which the inputs to estimate the fair value are observable.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as a price) or indirectly (i.e., derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs) and which are significant to the valuation.

Notes to the Financial Statements (continued) For the year ended 31 December 2020

8 Financial instruments and associated risks (continued)

(e) Fair value of financial instruments (continued)

Investments typically classified within Level 1 include active listed equity securities, exchange traded derivative financial instruments and certain Government bonds. Investments typically classified within Level 2 include investments in corporate bonds, certain Government bonds, certain listed equity securities and over-the-counter derivative financial instruments. Investment funds are also considered Level 2 investments if there is evidence that redemptions occurred during the year and there were no restrictions preventing redemptions as at the year end. As Level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability. Such adjustments are generally based on available market information. Investments typically classified within Level 3 include certain corporate bonds, private equity securities and investment funds that have suspended redemptions, created side pocket classes or imposed gates. Within Level 3, the use of the market approach generally consists of using comparable market transactions.

There were no Level 3 investments held by the Sub-Funds as at 31 December 2020 (31 December 2019: Same).

The Sub-Funds' investments in listed equity securities, investment funds and futures are classified within Level 1 - quoted prices in active markets that are accessible at the measurement date for identical, unrestricted investments.

The Sub-Funds' investments in corporate bonds and warrants are classified within Level 2 - other significant observable inputs.

The tables below summarise the Sub-Funds' classification of investments, into the above hierarchy levels as at 31 December 2020:

As at 31 December 2020

Praude Total Return Fund	Level 1	Level 2	Level 3	Total

9 Shares

The ICAV issues ordinary participating shares ("Shares") and management shares of no par value. Only holders of the management shares have the right to vote at any general meeting of the ICAV.

There are two management shares currently in issue which are held by the AIFM (31 December 2019: Same).

Share capital transactions for the year ended 31 December 2020 are summarised in the table below:

	Redeemable Participating Shares					
	In issue as at	In issue as at Issued Redeemed In issue as				
Puerdo Totol Dotarun Fund	beginning of year	during the year	during the year	end of year		
Praude Total Return Fund Class A EUR	36,228	12,169	(2,875)	45,522		
Praude Pure Equity Fund Class A EUR	21,880	4,085	(8,345)	17,620		

Share capital transactions for the year ended 31 December 2019 are summarised in the table below:

	Redeemable Participating Shares			
	In issue as at beginning of year	Issued during the year	Redeemed during the year	In issue as at end of year
Praude Total Return Fund Class A EUR	26,674	9,554	-	36,228
Praude Pure Equity Fund Class A EUR	5,700	16,243	(63)	21,880

Shares may be issued on the first and fifteenth business day of every month ("Subscription Day"). Shares issued in a Sub-Fund or a Share Class will be in registered form and denominated in the base currency specified in the relevant Supplement for the relevant Sub-Fund or the currency attributable to the particular Share Class.

Shares have no par value and will first be issued during the Initial Offer Period for each Sub-Fund or Share Class as specified in the relevant Supplement. Thereafter, Share Classes shall be issued at the Net Asset Value per Share.

Shareholders may redeem Share Classes by applying to the Administrator on any redemption day designated in the relevant Supplement. The redemption price per Share is calculated by reference to the Net Asset Value per Share and any redemption charge to be levied.

10 Related party transactions

IAS 24 - parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

Aoife Connolly and Janice Moore are both senior employees of European & Global Investments Limited, who act as the AIFM to the ICAV.

Robert Azzopardi was the Chief Financial Officer up to 14 June 2019 of Praude Asset Management Limited, who act as the Investment Manager to the ICAV.

As at 31 December 2020, the Directors are satisfied that all transactions with related parties, Directors or any other party in which they have a material interest in, are entered into in the ordinary course of business and on normal commercial terms.

Notes to the Financial Statements (continued) For the year ended 31 December 2020

10 Related party transactions (continued)

None of the Directors or the Secretary had any interest in the share capital of the ICAV as at 31 December 2020 (31 December 2019: Same).

Fees paid to the Directors, the Investment Manager and the AIFM are disclosed in note 5.

Consultancy fees paid to European Investment Consulting, an affiliate of the AIFM, during the year ended 31 December 2020 amounted to EUR 18,000 (31 December 2019: EUR 16,800).

11 Auditors' remuneration

	Year Ended	Year Ended
	31 December 2020	31 December 2019
	EUR	EUR
Audit (exclusive of VAT)	15,000	15,000
Total audit fee	15,000	15,000

Except for the fees for the audit of the ICAV's financial statements, there were no other fees charged by Deloitte Ireland LLP in relation to tax advisory, other assurance or other non-audit services.

12 Soft commission arrangements

A soft commission arrangement is a means of paying a brokerage firm for its services through commission revenue. For the year ended 31 December 2020, the Sub-Funds did not enter into any soft commission arrangements (31 December 2019: Same).

13 Exchange rates

The following exchange rates were used to convert other assets and liabilities to Euro.

Net Asset Value for dealing purposes	36,863,838	25,679,344
Adjustment for write off of establishment expenses	(24,260)	(20,934)
	36,839,578	25,658,410

16 Investment funds

The below table provides details on the investment fund which the Praude Total Return and Praude Pure Equity Funds invested in at 31 December 2020.

Praude Total Return Fund & Praude Pure Equity Fund

Description	Domicile	Management Fee	Performance Fee
AURORA SA SICAF RAIF A	Luxembourg	1.50%	-

Notes to the Financial Statements (continued) For the year ended 31 December 2020

17 Significant events during the year

During the year we saw the development of the coronavirus Covid-19 outbreak initially in China and now reaching most continents. It has been declared a global pandemic by the World Health Organisation. The nature and extent of the impact of such an event is difficult to predict but it may adversely affect the return on the ICAV and the Sub-Funds' investments and there is concern about the impact on the world economy in the medium-term. There was a significant correction in the financial markets in the year although this has been partially recouped. The AIFM and the Investment Manager continue to monitor the efforts of governments to contain the spread of the virus and monitor the economic impact on the investments in the portfolios.

Investors should be aware of the liquidity risk presented by this global pandemic. There is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. Market disruptions or closures may result in the Investment Manager being unable to accurately value the assets of the Sub-Funds, or in the event of high levels of redemption, the AIFM may use certain liquidity management tools permitted by the Central Bank, including deferred redemptions, the implementation of fair value pricing or temporarily suspension of the Sub-Funds.

There have been no other significant events requiring disclosure in the financial statements.

18 Significant events after the year end

On 28 January 2021, the Directors formally made the decision that it was no longer practical or viable to continue to operate the Praude Pure Equity Fund and it was in the best interest of the Shareholders to terminate the Sub-Fund. The Sub-Fund terminated as at 30 April 2021.

There have been no other significant events since the year end that require disclosure in these financial statements.

19 Statement of portfolio changes

A statement of changes in the composition of the ICAV's portfolio is available to shareholders free of charge upon request from the Administrator.

20 Approval of the financial statements

The financial statements were approved by the Board of Directors on 16 June 2021.

Remuneration Policy (unaudited) For the year ended 31 December 2020

The information provided below relates to the AIFM

The AIFM has implemented a remuneration policy pursuant to the principles laid down in Schedule 2 of the AIFM Regulations and the AIF Rulebook. This remuneration policy shall be consistent with and shall promote sound and effective risk management and shall focus on the control of risk-taking behaviour of senior management, risk takers, employees with control functions and employees receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the AIFM and the Sub-Funds.

In line with the provisions of the AIFM Regulations and the ESMA Guidelines on Remuneration, each of which may be amended from time to time, the AIFM applies its remuneration policy and practices in a manner which is proportionate to its size and that of the ICAV, its internal organisation and the nature, scope and complexity of its activities.

Further details relating to the current remuneration policy of the AIFM are available on www.egifunds.com. This includes a description of how remuneration and benefits are calculated and the identity of persons responsible for awarding the remuneration and benefits. A paper copy will be made available upon request free of charge by the AIFM.
